

Control4® Dealer Demo Kit

Control4® Dealer Demo Kit

C4-DEMO-120

C4-DEMO-240

Showcase Control4® Smart Home Solutions for potential customers right in their own home using the all-new Dealer Demo Kit from Control4. This demo kit beautifully showcases the stunning and sophisticated new products from Control4, including the T3 Series In-Wall Touch Screen, the SR-260 System Remote Control, and the Control4 Wireless Thermostat by Aprilaire®. These kits have been completely redesigned for portability and durability, allowing for ease of use at any home show or customer home. Better still, it's fully operational within minutes of being powered up and can be packed away in even less time. Use the Dealer Demo Kit to demonstrate how to coordinate virtually all connected devices in a home for a truly personalized homeowner experience, with solutions that maximize comfort, convenience, entertainment and peace of mind.

- Demonstrate key smart home solutions: Entertainment, Lighting, Comfort and Convenience, Safety and Security
- Elegant new Control4 products
- Updated, modern look and feel
- Designed for portability and durability
- Pre-wired for fast and easy setup
- Low-cost solution for a mobile Control4 showroom
- Start small and expand with door locks, sensors and more!

All components in the Dealer Demo Kit are installed in a case designed for easy transport and setup. Detailed instructions for initial setup and Control4 equipment identification are included. We have even created a sample project file for you to load on to your kit. This sample project file incorporates and highlights all of the hardware included in the Dealer Demo Kit and features scenes incorporating aspects of several solutions all in one. With a simple press of the "Good Night" button at the end of a day, all lights in the house are turned off, the thermostat is set to a comfortable 65 degrees and the security system is armed, keeping the family comfortable, safe and secure the for the night. Use this sample project as a starting point, or feel free to create a customer project file of your own.

For registration purposes, each Demo Kit will be designated as a sub-account of the ordering dealership and current Control4 software can be demonstrated with the kit at no additional charge. Purchase of the Dealer Demo Kit also includes complete 4Sight, Intercom, and MyHome Site license functions. Built-in networking supports most forms of Internet access, including Ethernet WAN via DSL and cable Internet, wireless cellular access via 3G, 4G, and LTE Modems.
